

Corrugated Formwork

Fast and simple, for constructing concrete ground beams

An extruded polypropylene twin wall, semi-rigid board with an excellent strength to weight ratio. Provides a quick and cost effective solution formwork solution for Ground Beams, Pile Caps, etc.

Advantages

- Lightweight & easy to handle
- Easy to cut to size with a knife
- Easily creased to form corners, etc.
- No need for release agents, form-work preparation or stripping
- Minimises concrete waste
- Significant labour savings
- Stores flat reducing storage space & transport costs

Technical

Melt Temperature	160°C
Softening Point	152°C
Tensile Strength (Polymer) ISO527-1-2	27 MPa
Average Compression Strength	60 MPa /m ²

Improving choice, quality and service
